ARE YOU WORRIED? GET HELP HERE!

Older children and young people sometimes develop radical opinions which can lead to extremism - and in the end, to criminal activities and acts of terror.

Therefore, it is important to react in time.

- Are you seeing the warning signs of changed behaviour, isolation and increasing intolerance?
- Are you hearing extreme viewpoints?
- Are you witnessing extreme actions?
- Are you worried for your child, a young family member or another acquaintance?
